

## **COHORT-BASED MBA PROGRAM COURSE SEQUENCE**

*THE ONLINE MBA STARTS ANNUALLY IN THE FALL SEMESTER*

NMSU's Cohort-based Distance MBA Program is designed for the working professional wanting to continue their education without compromising their current career. The program allows individuals to obtain their MBA in 24 months through a hybrid course delivery method.

Courses are delivered online and include a synchronous component in which students are able to engage at a distance on one evening each week. The synchronous element allows for interaction between the instructor and students and among the students. Class videos are recorded and are available to students throughout the semester.
