MGT309: Organizational Behavior

Course Meets: 6:00-8:30 p.m. Monday Evenings
Classroom: HA 112
Instructor: Dr. Phil Benson

Instructor Contact Information

Office: BC338
Office Hours: Tuesdays 2:00-3:00 p.m. or by appointment
Office Phone: 505-646-5695
E-mail Address: pbenson@nmsu.edu

Course Objective

All organizations involve people, and the dynamic interactions among those people can have a major influence on how well the organization functions. In this course we will discuss the human side of business, focusing on how people impact the organizations of which they are a part.

This course will help you to understand and survive in the day-to-day interpersonal dynamics of an organization. While technical skills are important in career success, it is still the case that most people terminated for cause in the USA are released because of behavioral, not technical, issues.

Textbook

General Policies

Policy on Academic Honesty: Cheating will not be tolerated. Punishment for those caught cheating will be an “F” in the course. The person will also be subject to further sanctions as outlined in the NMSU Code of Student Conduct.

Cell Phones: The policy is simple—turn them off. As in the business world, cell phones and beepers that go off in class will be viewed as disruptive and a lack of etiquette. Unlike the real world, in class it won’t get you fired.

Policy on Electronic/Information Devices: No communication devices of any form are allowed to be visible during any graded activity. All such devices must be placed in a backpack, purse, or pocket, where they cannot be seen, even less be used. If the instructor see you in visible possession of any telephone, palm pilot, laptop, tape recorder, iPod, disk player, or any other device that can be used to store, retrieve, send, or
receive any kind of information, data, or message, it will result in an automatic grade of “F” in the course, without regard to whether the device was in use at the time it was seen or not.

Attendance Policy: Formal attendance will not be recorded during class meetings, but regular attendance is strongly encouraged by your instructor. Material on exams will be drawn from assigned readings, and also from class lectures and discussions; students are responsible for material covered in class whether they are in attendance or not.

Assignments may be given during class time, and absence does not excuse the student from timely completion of those assignments. Activities done in class are inherently not capable of being made up, and thus any such activity, which carries graded evaluations, is simply missed and not given points for those who miss that class period. In addition, it has been the experience of your instructor that students who miss class on a regular basis often fail the course academically, and non-attendance will likely thus result in a poor grade in its own right. Attend every class meeting.

Disabilities/Employee Relations: Call the Coordinator of Services for Students with Disabilities at 505.646.6840 regarding student issues related to the Americans with Disabilities Act (ADA) and/or Section 504 of the Rehabilitation Act of 1973. All medical information will be treated confidentially. Call the Director of Institutional Equity at 505.646.3635 with any questions you may have about NMSU's Non-Discrimination Policy & complaints of discrimination, including sexual harassment.

Student Evaluation and Grading

Students will be graded primarily on two bases. There will be a series of quizzes given at the start of every class, and these quizzes will be a major portion of your grade. The quizzes will cover the lecture from the previous week, and the readings for the current week.

A final exam will be given as scheduled by NMSU, and that exam will cover the entire course as presented during the semester.

Each quiz is weighted 20 points, and the highest 10 quizzes will be counted. Thus, quizzes are worth 200 points in total. Because you can drop your lowest three grades, no make-ups will be allowed for quizzes. The final will be weighted 100 points. The total point value available is thus 300, and final grades will be assigned according to the following scale:

<table>
<thead>
<tr>
<th>Points</th>
<th>Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>270 or more</td>
<td>A</td>
</tr>
<tr>
<td>240-269</td>
<td>B</td>
</tr>
<tr>
<td>210-239</td>
<td>C</td>
</tr>
<tr>
<td>180-209</td>
<td>D</td>
</tr>
<tr>
<td>179 or less</td>
<td>F</td>
</tr>
</tbody>
</table>
Course Schedule

January 22

Course Introduction

January 29
