MGT503: Organizational Behavior and Management Processes
Instructor: Philip G. Benson, PhD
Class Meets: 5:15-9:45 p.m. Thursdays, Sandia
Fall Session, 2009

Instructor Contact Information

Office: BC338
Office Hours: 2:00-3:30 p.m. Tues. or by appointment
Phone: 646-5695
e-mail: pbenson@nmsu.edu

The best way to contact me is through e-mail. Please, send messages directly to
me, not through BlackBoard, as this will ensure a more timely response to questions or
comments.

Objective

In this course we will examine the basic nature of human behavior in
organizations, and the fundamental issues, theories, and processes required to properly
manage and direct such behavior for the attainment of organizational goals and
objectives. The course is intended for graduate level students interested in management
and administration, and although the primary focus will be on business organizations,
there will be much of the course content that is also relevant for those students interested
in managing non-profit organizations, government agencies, NGOs, and other forms of
human organizations.

To properly understand human behavior in organizational settings, it is necessary
to go beyond mere “textbook” knowledge and instead delve into fundamental issues on a
more practical level. Thus, this course will include classroom lecture, but will also
require students to participate in a variety of in-class activities, especially case
discussions. For learning to take place in these contexts, it is critical that students attend
the course regularly. In-class activities are inherently just that, in-class, and there is no
appropriate way for a student to “make up” such activities when missed. Thus, there will
be no make-ups allowed for in-class work.

As individuals advance within organizational hierarchies, the mix of task
expectations will change. Those in management positions are expected to perform far
more interpersonal and “human relations” tasks, and to spend less time on technical
details of task accomplishment. This course will focus on the nature of management as a
human process.

Textbooks

Basis of Student Grading/Evaluation

Students will be expected to meet several objectives, and this will require that several components be graded to evaluate student performance. First, there will be a formal exam. This will be given during finals week, and will be “open book, open notes” in format. The only restriction on use of material will be that all work be original by the student submitting the exam (see policies on academic honesty below). Obviously, any exam allowing use of outside material will inherently require students to think about issues raised, and will require application of knowledge to unique situations rather than to simply give back “facts” memorized in class. Creativity, depth of understanding, and perceptiveness will be the primary standards used in evaluating responses to questions, and the questions will be very broad in nature, with ambiguous problems to be addressed.

In-class participation will be evaluated generally. This requires that students prepare for class by doing all assigned readings, and take an active role in their own education. As your instructor, I will not maintain a “log” where I count your comments in class, or any other such objective measure of participation. Rather, your evaluation will inherently be subjective in nature, and will reflect my perception that you are a meaningful participant in the class.

Specific grades will be given for case discussions which will take place in class as indicated in the course schedule below. Each case will require a specific written assignment be done before class, which must be turned in, typed, in class when the discussion takes place. Grades on individual cases will be a combination of the written material submitted, and the participation in the discussion of the case in class. Please see my guidelines on cases for a clear idea of the basis of my expectations for case preparation and participation.

In addition to discussion of cases in class, other activities will be used at times, and can involve a variety of activities. In particular, I believe that films can show meaningful insights into social and behavioral processes, and at times there will be film clips shown in class, with required analysis and discussion by students. As with case discussions, there is no meaningful way to “make up” an activity like this once it is missed, so attendance is mandatory.

Last, there will be a paper requirement in lieu of the course meeting on September 3rd. Information on the expectations for this will be given in class.

The formal grading scale in this course is as follows:

Final Exam: This is weighted 200 points. The exam will be completed during class time, will cover a wide variety of topics from the semester, and will require the student to think in applying course knowledge to creating cogent answers. This is an open book exam,
and students can use their texts, wireless access to the internet, or other resources in framing their answers. However, under no circumstances will students be allowed to confer with other students or other persons during the exam. This means cell phones will not be present, and means that anyone using a computer will be absolutely forbidden from accessing communication programs, especially e-mail or “chat” facilities, during the exam.

Cases: There will be six cases discussed in class (one per class meeting), and students can drop any one grade on these cases. This also allows students to miss one class meeting, and drop the resulting zero from that case discussion. The seven remaining cases are weighted at 20 points each, for a total of 100 points.

Note that for each case, there are questions in the text. The case book is organized into four sections, and each starts with a discussion of information critical to the cases (please read this as part of your preparation), and a series of questions for each case along with a very brief summary of each case. Your written assignment for each class meeting is to prepare answers to the questions given for each case. For example, the first case, on Daimler-Chrysler, is found on pages 190-192. On page 183, in the opening to the cases on change management, there is a synopsis and two questions. These are the questions for which you should prepare answers in getting ready for class discussion of this case. The same approach should be used for each case, and these will form the basis of your written case analyses.

Major Case Written Analysis: For September 3rd, you will do an extensive case analysis based loosely on the Daimler-Chrysler case in your text. Details will be covered in class on August 20th. This will have a weight of 100 points.

Participation: Course participation will be graded as noted above, and will be given a total weight of 100 points. This will be broken into two subcomponents: I will give you at midterm a summary of the first half of your participation grade, although the total of 100 points for the semester will be given at the end of the course.

Other In-Class Activities: The total points for other in-class activities (film clip discussion, etc.) will add up to 50 points.

Thus, a total of 550 points are available. Grades will be assigned on the basis of the following grading scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>495 points or more</td>
</tr>
<tr>
<td>B</td>
<td>440-494 points</td>
</tr>
<tr>
<td>C</td>
<td>385-439 points</td>
</tr>
<tr>
<td>D</td>
<td>330-384 points</td>
</tr>
<tr>
<td>F</td>
<td>329 points or less</td>
</tr>
</tbody>
</table>
Course Schedule

**August 20:** What is Organizational Behavior, and what is the nature of High Performance Organizations? We’ll also discuss ethics.

SHO: Chapters 1, 2

**September 3:** Organizational change. You will write a paper instead of attending the regular class meeting

SHO: Chapter 19
Case: Crafting a visions at Daimler-Chrysler (pp. 190-192)

**September 17:** The nature of global organizations and diversity

SHO: Chapters 3, 4
Case: Intel in China (pp. 77-84)

**October 1:** Motivation in work organizations

SHO: Chapters 5, 6
Case: Jinjian Garment Factory: Motivating Go-Slow Workers (pp. 30-35)

**October 15:** HRM and the nature of jobs

SHO: Chapters 7, 8
Case: Macintosh Financial: Sexual Harassment (pp. 103-107)

**October 22:** Groups, teams and decisions

SHO: Chapters 9, 10, 17
Case: Chuck MacKinnon (pp. 84-97)

**November 12:** Organizations, organizational culture, and strategy

SHO: Chapters 11, 12, 13
Case: ABB Poland (pp. 192-201)

**December 3:** Leadership and politics

SHO: Chapters 14, 15
Case: PETA’s “Kentucky Fried Cruelty, Inc.” Campaign (pp. 230-246)

**Specific Time TBA Finals Week:** Final Exam
Important Policies

· **Incomplete Grades:** Incomplete grades may be given only if a student has passed the first half of the course & provides evidence of a documented illness or family crisis that the instructor believes genuinely precludes successful completion of the course. An incomplete grade will not be given simply because the student is unhappy with his or her academic progress during the semester.

· **Withdrawals:** it is the responsibility of the student to know important dates such as University drop dates. Moreover, it is the responsibility of the student to officially withdraw from any class that he or she intends to drop.

· **Students with Disabilities:** If you have, or believe you have, a disability & would benefit from any accommodation(s), you may wish to self-identify by contacting the Services with Disabilities (SSD) office located at Garcia Annex (phone 646-6840; TTY 646-1918) to register. All medical info will be treated confidentially. If you have already registered, please make sure that your instructor receives a copy of the accommodation memorandum from SSD within the first 2 weeks of classes. It will be your responsibility to inform either your instructor or SSD representative (in a timely manner) if the services/accommodations provided are not meeting your needs. If you have a condition that may affect your ability to exit safely from the premises in an emergency or that may cause an emergency during class, you are encouraged to discuss any concerns with the instructor or Ms. Jane Spinti, SSD Coordinator. Feel free to call Mr. Paul Gayle-Smith, Director, institutional Equity/EEO, at 646.3635 with any questions about the Americans with Disabilities Act (ADA) &/or Section 504 of the Rehabilitation Act of 1973.

· **Cheating:** Cheating will not be tolerated. Punishment for those caught cheating will be an “F” in the course. The person will also be subject to further sanctions as indicated in the NMSU student code of conduct.

Attendance Policy

Formal attendance records will not be kept, or used as a basis of evaluation directly. However, given the amount of in-class graded work in this course, students who fail to attend will inherently not succeed in this class. Thus, think of attendance as mandatory, but not formally recorded.
